

WE NEED YOUR HELP!

This?? or This!!!

The Bureau of Land Management (BLM) has recently proposed ‘EUTHANIZING’ tens of thousands of our wild horses – once deemed ‘America’s National Heritage.’

BLM has created it’s own monster by rounding up 33,000 wild horses instead of properly managing them on the wild ones’ designated herd areas throughout millions and millions of acres in the Western United States.

These are OUR public lands and OUR wild horses, not belonging to BLM, the overseers, but to

YOU, the citizens of the United States.

Now, our American Mustangs could pay for BLM’s mismanagement

with their lives.

We are asking concerned American citizens to express your concerns at this critical hour. PLEASE DON’T WAIT! THEIR LIVES COULD BE IN YOUR HANDS.

**Call Secretary of the Interior Dick Kempthorne (202-208-3100)
Director of the Bureau of Land Management Jim Caswell (202-208-3801)**

Thank you.
